About Phenom

Phenom is a global HR technology company with a purpose to help a billion people find the right job. With an expertise in building AI-powered, scalable solutions, Phenom delivers its Talent Experience Management platform (TXM) to enterprises, enabling them to help candidates and employees find the right job, recruiters identify and engage the right talent, and managers optimize HR strategy, process, and spend.
Phenom was a winner in the Business Intelligence Group's 2021 Artificial Intelligence Excellence Awards program for its sophisticated machine learning capabilities and was ranked among the fastest-growing private companies in the 2021 Inc. 5000.

About Mahe Bayireddi

Mahe Bayireddi is the CEO and co-founder of Phenom, a global HR technology company with a purpose to help a billion people find the right job. Phenom's revolutionary AI-based Talent Experience Management (TXM) platform eliminates multi-point solutions across the talent lifecycle to simplify how companies attract, engage, convert, and retain talent. The SaaS platform's native AI drives personalization, automation, and accuracy for candidates, recruiters, employees, and management.
Bayireddi is a passionate entrepreneur who previously co-founded several successful technology companies and is known for his expertise in predictive intelligence and machine learning. Bayireddi is also a member of the Forbes Technology Council where he shares industry insights related to improving the talent experience.
